SUBJECT: Cleanup of Four Training Areas at Ft. Bliss			
<b>SUMMARY OF COMMUNICATION</b> Clark Junion of Kansas City COE called me for information on cleanup of 3 FTA's at Ft. Bliss. Specifically he wanted to know 1) cleanup requirements under SARA, and 2) if I knew whether a closure plan had been submitted to the State. After checking with Joyce Stubblefield in EPA RCRA and with Susan Ferguson, TWC, I called Mr. Junion to report my findings. I explained to Mr. Junion that a recent RCRA inspection indicated the FTA's had been operational until 1984 which made them fall under the auspices of RCRA. I told him the TWC was interested in the FTA cleanup, and that the State contact is Jim Martin (512) 423-2540. I explained that in terms of legal requirements the State would have the lead, and that since Ft. Bliss is not on the NPL, <del>State</del> EPA has essentially no authority to enforce SARA cleanup standards and that their involvement with us under SARA would be on a matter of courtesy and coordination. I also explained that a closure plan was in the RCRA files, but that it was for the drum storage area, not the FTA's themselves. He hadn't seen that plan and requested I send him a copy.			
<b>CONCLUSIONS, ACTION TAKEN OR REQUIRED</b> 1. Send copy of Bldg. 11614 closure plan to Mr. Junion
